## ABOUT SUPRIYA EXTERIA HPL

Our Corporate group of companies have been serving our nation for the last three generations. The main motto of our corporate group is to meet meeting requirements of human beings at a very affordable price with the Best quality products.

# SUPRIYAEXTERIA HPL AN OVERVIEW

SupriyaExteria comprises exterior-grade, designer, high-pressure laminates that make the exteriors of a building as inviting as its interiors.

SupriyaExteria is committed to the best of exterior solutions in an assortment of designer shades, patterns, and solids. Exterior facades have a significant degree of influence on the longevity and efficiency of a building. The facades and their quality impact the room and building temperature, thereby reducing the energy consumption for cooling systems.

These uber-cladding solutions from SupriyaExteria are a proportionate mix of functionality, design optimization, and aesthetics. SupriyaPly's local manufacturing facility in India contributes tremendously to the brand's strong logistics systems, hence ensuring timely deliveries for tightly-deadlined projects. The beauty and strength of the designs have a significant role to play in creating a deeply impressionable plan, and SupriyaExteria takes into account both of these elements,

## What Supriya Exteria HPL Can Do

Supriya Exteria HPL panels are durometer high-pressure laminates (HPL) following EN 438-6 Type EDF that are produced in lamination presses under great pressure and high temperature. Double-hardened acrylic PUR resins provide extremely effective weather protection that is particularly suitable for long-lasting balconies and facade claddings.

### PROPERTIES

- Weather resistant to EN ISO 4892-2
- lightfast acc. to EN ISO 4892-3
- Double hardened
- Scratch resistant
- Solvent resistant
- Hail resistant
- Easy to clean
- Impact resistant EN ISO 178
- Suitable for all exterior applications
- Decorative
- Self-supporting
- Bending resistant EN ISO 178
- Frost resistant -80°C to 180°C (DMTA- OFI 300.128)
- Heat resistant -80°C to 180°C (DMTA- OFI 300.128)
- Easy to install

## SUPRIYA EXTERIA HPL CLADDING AGAINST ALL ODDS

The special Cladding robustly justifies its name for the exteriors. Supriya Exteria HPL is the ultimate weather proofing shield to safeguard your exterior surfaces against everyday weather variations and extreme climatic conditions. It is truly the superhero in the world of external cladding.

**Against WETTER:**  
Highly weather resistance even when exposed to extreme cold or heat conditions and extreme levels of humidity.

**Against UV:**  
A special UV-protected treatment makes the claddings UV-resistant and prevents discoloring under long exposure to direct sunlight.

**Against CLIMATIC SHOCK:**  
It is resistant to sudden changes in temperature and humidity in the atmosphere.

**Against CORROSION:**  
Corrosion unlike other external cladding products.

**Against GRAFFITI:**  
Any writing marks made on the surface can be easily removed using soap water or hot water.

**Against TERMITES:**  
Highly resistant to termite and fungal attack.

**Against MOISTURE:**  
Highly moisture resistant hence ideal for use in all types of exterior cladding.

**Against IMPACT:**  
It is impact-resistant and has a very good modulus of elasticity due to the modified phenolic resin.

**Against ABRASION:**  
It has superior abrasion and wear resistance capabilities which gives it a good life span.

- 1 Ceilings
- 2 Ventilated Facades
- 3 Balcony Claddings
- 4 Pillars
- 5 Doors
- 6 As Highlighter

### OTHER APPLICATION AREAS

- Partitions • Railings • Fences • Outdoor Furniture • Public Facilities • Playground Facilities • Sports Facilities
- Sun Protection System • Office Entry Portals • Windows
